

BRENT

CORNER-AUGER GRAIN CART

Harvest goes smoother with the 1,100-bushel capacity Brent model 1182 grain cart. The rear-folding corner-auger design provides the industry's greatest unloading height and reach and features a 4-way downspout for precise unloading control and optimum harvest efficiency

1182

When you're ready **for the best**

CORNER-AUGER positioning for 100% unloading visibility from the tractor cab

Brent grain carts outlast and outperform any other grain cart you can own. The model 1182 with 1,100-bushel capacity features durable steel construction, truss frame design and oversized, heavy-duty power train components for years of dependable and low-maintenance service.

- 20"-diameter auger and fully recessed auger sump for unloading speed up to 500 bushels per minute
- Quick, complete unloading of high-moisture grain with 45° sideslopes, 39° front and 34° rear slopes
- Patented Soft-Start mechanism ensures smooth and complete engagement of lower and upper augers at start-up for reduced stress and longer driveline life
- Full auger length Extended-Wear .438" thick flighting at the outer edge for longer life
- 1-3/4" output shaft on gearbox for reliable, long-term life
- Requires four hydraulic remotes for flow control, auger fold, spout rotate, spout front/rear
- Standard rollover tarp with 18 oz. canvas for added durability
- Available in choice of high-gloss, oven-baked enamel topcoat of tractor green or red
- Wide variety of undercarriage options:
 - High-flotation singles
 - Standard tracked undercarriage features hydraulic tensioning with steel end-wheels and 10-bolt idler wheel hubs
 - 131" x 42" Equalizer™ track for largest footprint in the industry - over 50 square feet - and unique design allowing each track to camber independently to follow ground contours for optimum flotation
- Field-proven, 4.5" bolt-on stress-proof steel spindles with 50-ton ratings and 10-bolt hubs with gusseted reinforcement for maximum carrying capacity

Downspout features 60° left/right movement and 20° front/back movement for the most flexible unloading control

Equalizer™ tracks for optimum flotation

Options

- Five-point weighing system provides the most accurate, reliable data when used with traditional scales or UHarvest data system.
 - **UHarvest® data management system** for the most complete detailed grain-cart harvest data possible
 - **UHarvest Lite scale package** for easy hookup to the tractor's ISOBUS connection
 - **Traditional scale package** with choice of weighing only, or data-rich model 520 with host of data gathering capabilities
- **Auto-unload for scale-equipped carts** - Unload predetermined weights by truck or wagon for convenient compliance to local weight restrictions
- **Hydraulic drive** for use with tractors without PTO

Model 1182 specifications*

| Capacity | Auger Size | Unloading Speed (bu/min) | Approx. Empty Weight (lbs.) | Approx. Tongue Weight (lbs.) | Minimum Tractor H.P. Requirements |
|----------|------------|--------------------------|-----------------------------|------------------------------|-----------------------------------|
| 1,100 | 20" | 500 | 12,600 | 4,900 | 200+ |

*Bushel capacities measured with #2 corn at 15% moisture (56-lb. test weight) U.S. Patent #7,329189, additional U.S. and foreign patents applied for.
