

FARMALL® C SERIES TRACTORS

## READY TO WORK AS HARD AS YOU.

Getting the job done can mean working the whole day every day. And it means having equipment that works as hard as you do. The Farmall C series tractors from Case IH are more than ready to do their part – built to deliver the power and performance you need, reliably and cost-effectively. And they deliver a level of operator comfort that makes long, hard days more productive. This is a new generation of Case IH utility tractors that is as ready as you are for a hard day's work.

## FARMALL C TRACTORS: READY TO DO IT ALL.

Case IH Farmall C series tractors are hard-working, heavy-duty, deluxe tractors with flexible options to handle any application. These deluxe utility tractors feature full power, full comfort and full features and are ideal for demanding livestock duties, larger hay operations and heavy loader work.

### **INTUITIVE INNOVATION.**

Case IH has more people working hand in hand with producers to reach one goal: helping them be ready for the tasks at hand with easy-to-understand controls, improved technologies and more efficient power. For more information about available models, see pages 6–7.

### **VERSATILITY.**

Farmall C tractors can be configured for all types of work, from field to feed lot. And our selection of transmission options give you the power and control you need plus smooth and simple operation. For more information see pages 8–9.

### **OPERATOR ENVIRONMENT.**

Work in comfort in the cab of the Farmall C series. With extra conveniences and space to stretch out, you'll power through long days and be more productive than you ever imagined. For more details about our cabs, see pages 10–11.

### **FACTORY-INSTALLED LOADERS.**

Add a factory-installed loader and one or more of over a dozen available attachments and get even more out of your Farmall C series tractor. Choose from the L620, the heavy duty L630 or the premium L735. Tackle loads with the standard 12.5 gpm hydraulic pump or the optional 16.9 gpm pump. For more loader and attachments information see pages 12–13.

## MORE POWER. MORE OPTIONS. BECAUSE THERE'S ALWAYS MORE TO DO.

From the feedlot to the pasture, the new Case IH Farmall C Series tractors reliably and cost-effectively deliver the power and performance utility tractor owners expect, all in a superior interior environment. Three new utility powerhouses meet the demand for rugged, yet comfortable and easy-to-operate, equipment to get day-to-day jobs done. All five models come in either a cab or ROPS version, and are configured for simple service – all tractors feature a one-piece, flip-up hood for engine and component access. The air filter and fuse box are accessible from the fender.

**POWERHOUSE ENGINES THAT SAVE FUEL.** Tough at heart with updated clean-diesel technology, the new Farmall 85C – 115C models use Tier 4A-compliant Case IH FPT 4-cylinder 3.4-L turbocharged and intercooled engines. Precise electronic metering of fuel delivered with electronic high-pressure common-rail fuel injection provides a more efficient combustion process. This means improved efficiency, extended engine life, improved cold engine starting, but most importantly, greater fuel savings, all while maintaining high horsepower levels.

Cold weather starting is no problem with the standard, fully automatic electric grid heater.

Farmall C Series					
Model	Farmall 75C	Farmall 85C	Farmall 95C	Farmall 105C	Farmall 115C
Engine	4 cyl, 3.2 L (195 cu. in.)	4 cyl, 3.4L (207 cu. in.)

PTO HP	64	70	82	91	98
Available Configurations	Cab & ROPS				
Traction	2WD & MFD				

## ANY TASK. ANY TIME. ANYWHERE.

There's a reason why it was named the Farmall – because it really can just about do it all. A heavy-duty, compact frame, durable components and plenty of power to the PTO makes it a pleasure to pull out of the shed every day.

### CHOOSE THE TRANSMISSION THAT WORKS FOR YOU.

The Farmall 75C model features a standard 8×8 or 12×12 mechanical shuttle transmission with options of an 8×8 or 12×12 power shuttle, plus creeper and 20×20 power shift options. The four larger Farmall C tractors come with a 12×12 mechanical shuttle or power shift option, plus 20×12 mechanical shuttle or 20×20 power shift options with creeper.

### THREE-POINT HITCH REALLY PULLS ITS WEIGHT.

A three-point lift system with single-lever position control and a draft-sensing top link can lift up to 3,664 pounds (1 662 kg). For stability with a load, the Farmall C has standard-flex lower links with telescopic stabilizers and right-link turnbuckle leveling. The category II ball ends convert to category I, and a swinging drawbar is standard. The Farmall C PTO is an independent mechanical engagement system that turns at 540 rpm at 2,160 engine rpm. A 540 rpm at 1,492 engine rpm is also available.

### HYDRAULICS KEEP EVERYTHING MOVING SMOOTHLY.

Farmall C tractors are built for implements, and the hydraulic system handles them with ease. An open-center system with dual, engine-driven hydraulic pumps delivers performance where and when you need it. One remote valve comes standard on all Farmall C tractors, and you have an option for a second and third. The standard implement pump is 12.5 gpm, or upgrade to the larger 16.9 gpm pump for more capacity on the 85C, 95C, 105C and 115C models.

### GOOD IN A TIGHT SPOT.

Farmall C tractors offer a lot of power in a small package – which makes them perfect for those tight squeezes in and around buildings, barnyards and on narrow pathways.

## STRETCH OUT IN THE ULTIMATE OPERATOR ENVIRONMENT.

The Farmall C series features a quiet cab that promises to provide outstanding operator comfort along with greater ease of operation. The industry-leading cab entry features a large opening with well-placed steps and hand holds. And the view is great from here: the optional high visibility roof panel and sloped hood provide best-in-class visibility when performing loader work and when operating in confined spaces.

### YOUR OUTSIDE OFFICE.

If you're working all day from the seat of your tractor, and a cab is on your "must have" list, the Farmall C cab is for you. Inspired by the Magnum™, Puma® and Maxxum® series tractor cabs, and perfected with input from operators like you, the Farmall C cab boasts a variety of comfort and convenience options and some very important standard features.

### KEEP AN EYE ON EVERYTHING.

With a high visibility roof panel, forward visibility has never been better. This panel, with optional opening window, provides improved visibility during loader work, even when the loader is extended to full height. In addition, the sloped hood provides industry-leading forward visibility.

### DO YOUR BEST WORK IN COMFORT.

Farmall C cabs are designed for maximum efficiency in any condition. And they're surprisingly roomy. Big enough for an optional instructor seat that allows two adults to ride together – comfortably. An air suspension operator's seat with 15-degree swivel is an option.

## THIS IS WORK. NOT A WORKOUT.

The Farmall C series tractors have conveniently-located, ergonomically-designed controls so you don't have to twist and strain to get work done. The new pivoting instrument cluster is easy to read and makes the Farmall C intuitive to use. An updated HVAC system with 10 well-positioned vents helps you stay comfortable, whether it's a hot July afternoon or a frigid January morning.

**A HIGH-VISIBILITY ROOF PANEL:** An overhead hood window panel is now available as an option. This panel, which can easily be opened, provides improved visibility during loader work.

**B ROOM TO MOVE:** The optional larger driver's seat offers a full 15 degrees of pivot freedom – and the control cluster pivots right along with the steering wheel.

**C CONTROLS WITHIN REACH:** Farmall series controls have a speed display included on the instrument cluster, the loader joystick location is optimized for comfortable operation and remote valves are positioned for easy access – all based on customer input.

## CASE IH LOADERS ARE READY TO WORK FOR YOU.

For your convenience, Case IH installs loaders at the factory. Choose from the L620, the heavy-duty L630, or the premium L735, which are all matched to the Farmall C tractor line. Your dealer can help you choose the one that's right for you. Each model comes with your choice of a non-self-leveling or mechanical self-leveling 72- or 84-inch quick attach bucket and a standard grille.

### QUICK ATTACH BUCKETS

The skid steer-style quick attach hydraulic coupler makes changing buckets and other attachments easy, without ever getting out of the tractor.

FRONT LOADER MODEL	L620		L630		L735

## HANDLES HAY OPERATIONS LIKE A PRO.

With their rugged design, heavy-duty frame and tough components, Farmall C tractors deliver outstanding maneuverability and stability in the tough terrain of hay operations. Equip your Farmall C with a Case IH mower, mower-conditioner, baler or loader and handle any chore. Loader attachments include buckets, blades and pallet forks – along with bale forks, bale probes, grapples and more.

Farmall C – We've got the tools you need for everything you need to do.

### IT'S LIKE HAVING A PARTNER BESIDE YOU ALL SEASON.

Case IH has more professionals in the field working alongside producers than anyone else – two out of three Case IH employees work right where you do. Case IH dealers have the know-how to help you manage your equipment investment to get the most out of every dollar. Our parts and service technicians have the skills and expertise it takes to maintain your equipment and keep it operating at peak performance. And CNH Capital can work with you to customize financing solutions that fit your unique needs. It's an entire system with only one goal in mind – to keep you up and running, working the way you want.

**MAX SERVICE**<sup>SM</sup> 1-877-422-7344  
**100% Availability. 100% Support.**

### MAX SERVICE: MAXIMUM UPTIME, SEASON AFTER SEASON.

In farming you can always expect the unexpected. Case IH was the first to offer manufacturer-direct aftersales support—CASE IH Max Service. Our dealers provide OEM parts, components, full-service maintenance programs and outstanding warranties – at no additional cost—to keep you up and running, and completely satisfied.

Need a part? Call 1-877-4CASEIH and it is on its way. And, we offer OEM remanufactured parts for the most critical components on most popular Case IH machinery. Many reman parts come as drop-in assemblies, getting you back to work quickly – at a fraction of the cost.

### OFFERING FINANCIAL SOLUTIONS FOR MORE THAN 50 YEARS.

CNH Capital's extensive experience in the agricultural industry has created a deep understanding of your unique needs. Competitive equipment financing with flexible payments can be timed to your cash flow. Or, conserve capital and reduce upfront payments with operating lease options. For other needs, choose from commercial revolving accounts specific to the agricultural industry. We can even help you protect your equipment investment with a wide variety of insurance and equipment protection products. There are financing options that fit the way you farm. CNH Capital helps you find them.
