

MASSEY FERGUSON

MASSEY FERGUSON PROFESSIONAL AND UTILITY LOADERS

FARMS // RURAL PROPERTIES // CONTRACTING

Massey Ferguson® FL Series loaders are the strongest, simplest and smartest loaders available for Massey Ferguson tractors. For lighter capacity needs, our MF 900 Series loaders offer options for our utility and mid-size tractors. We have your loader needs covered whether it's our utility tractors or our larger high-horsepower machines.

BORN TO **FARM**

The First Connected Loader

New eLoader provides unprecedented connectivity and precision, allowing operators to measure the weight of the implement easily and accurately in real-time.

- » Precisely measure the amount of material loaded
- » Weight, loader position and implement information is displayed on screen, in cab
- » Available as factory-installed option or as an aftermarket add-on

MF FL Series Professional

Loader Features:

- » Slim yet robust 'twin C-section' steel loader beams combining strength and visibility
- » Larger hoses and high flow cylinder ports reduce cycle times and improve performance
- » Standard SoftDrive® suspension reduces stress on loader and tractor, as well as the operator
- » Optional quick couplers rated to connect tractor/loader and loader/implement under pressure

MF 900X Series Utility

Loader Features

- » Large, zinc-coated pins have recessed grease zerks with rotation lock for improved longevity
- » All hoses are securely routed within the loader arm for protection, minimizing risk of damage
- » Quick and simple detaching which means that no time is wasted in-between tasks

MODEL	SELF LEVELING	LIFT HEIGHT @ PIVOT PIN (IN (MM))	LIFT CAPACITY TO FULL HEIGHT* (LB (KG))	LIFT CAPACITY AT 59" HEIGHT* (LB (KG))	COMPATIBLE TRACTORS
