

# TAKE CONTROL FROM THE CAB

## 2940 AIR ADJUST

### PLANTING CONDITIONS CHANGE EVERY HOUR, EVERY DAY

That's no problem with Yetter **Air Adjust** equipment, perfect for your on-the-go operation. No field is completely uniform throughout, and taking time during planting to stop and make adjustments for changing field conditions means you cover fewer acres per day. With the **Air Adjust** series of products from Yetter, you don't have to leave the cab to make adjustments—meaning you can cover more ground in less time.

### IN-CAB CONTROLLER

*Make quick and accurate adjustments with the touch of a button from the cab*

- Height and down pressure settings can be adjusted independently
- Presets can be programmed for quick changes
- Units can be raised from cab as needed with push of a button for wet areas, waterways, end rows, etc.
- ISOBUS option available for John Deere and CNH

### RESIDUE MANAGER

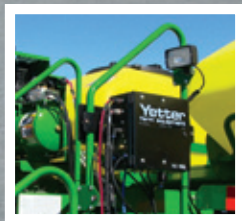

*The residue managing power Yetter is known for with convenient on-the-go adjustment*

- Features parallel linkage so manager floats with ground contour
- Available in wide and narrow widths
- Adjust up and down pressures to create the ideal ride for residue managers
- Down pressure can be increased to fix row cleaner in rigid position

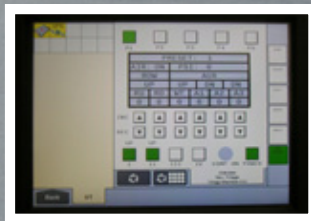

*More features on back*

**ELECTRIC COMPRESSOR**

**PNEUMATIC HYDRAULIC CONTROL KIT**

**ISOBUS SCREEN**

# Field planted using the Yetter 2940 Air Adjust

## **COULTER/RESIDUE MANAGER COMBO**

*Unit-mounted coulters with air-adjustable floating residue manager*

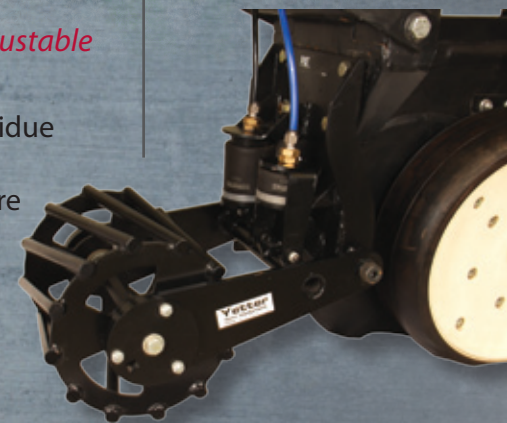

- Coulters can be removed and residue manager can still be run
- Adjustable up and down pressure for residue manager

## **FIRMING WHEEL**

*Completes the ideal closing system*

- Complements spike or rubber closing wheels by gently firming seedbed
- Creates more uniform seed environment in challenging conditions

## **ROLLING BASKET**

*Add rolling baskets to firm soil for ideal seedbed creation*

- Helps create smoother ride for planter gauge wheels and row unit

## **FLOATING RESIDUE MANAGER BASKET COMBO**

*Residue managers and rolling baskets in one package*

- Removes residue and firms soil for ideal seedbed and smooth ride for planter gauge wheels
- Pressure adjustments independently controlled
