## 3-Point Vertical Tillage

Pictured with LandTracker 9400 and No-Till drill for one pass fertilizer, tillage and seed operation

**Track Tillage**

Versatile frame and coulters easily accommodate triple coulter track tillage ahead of the planter with special design offset shanks

**StripTill**

BLU-JET StripTill Row Units can be mounted on CoulterPro's 15', 20' and 30' frames

## **Till, Fertilize, Seed And Apply Chemicals in One Pass**

- ▶ Accomplish similar sizing and tillage operations that the pull type vertical tillage implements do for a fraction of the cost
- ▶ Multiple spacing options and blade types to match your soil and residue conditions
- ▶ 4" x 6" x 3/8" double bar frame with 5 year frame warranty
- ▶ CoulterPro has over 20 years experience in the vertical tillage marketplace

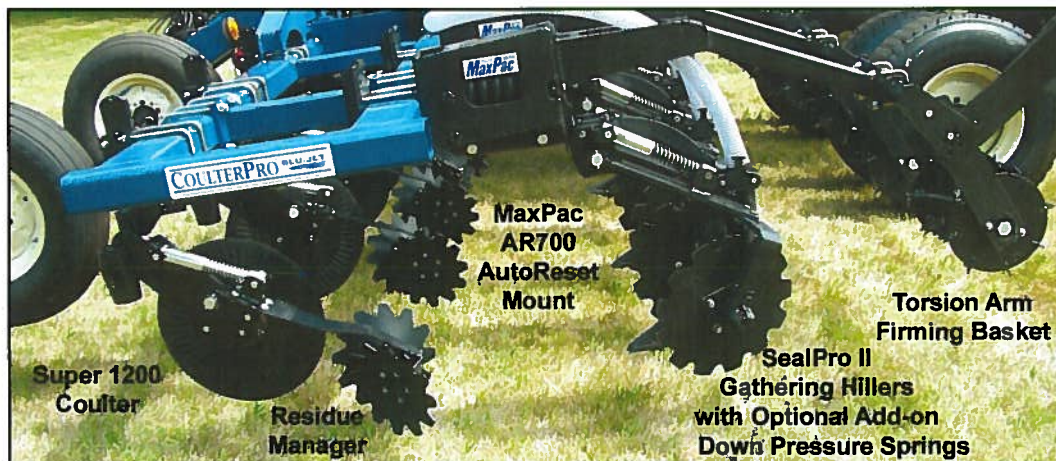

# COULTERPRO™

BLU-JET's unique folding wing utilizes a special inboard hinge design that allows the folded wings to lie completely inside the 15' width of the center section on all models except 20' rigid model. The wings can be positioned to float over uneven field terrain (from 7-1/2 degree below level to 13 degree above level-range of approximately 44") or locked into place with sturdy pins.
