

# Hydraulic Pallet Fork

## A MORE FLEXIBLE PALLET FORK

Our high quality hydraulic pallet forks are, in brief, more productive, comfortable and ergonomic. The pallet forks can be purchased either as a complete product in a number of sizes or in an easily retrofitted kit. This solution allows a perfect line of sight from the driver's cab to precisely position the required distance between the fork tines. The retrofit kit is suitable for all our ISO pallet fork frames manufactured since December 2012.
