FEEDER WAGONS

SLANT BAR FEEDER

SLANT BAR SINGLE AXLE
MODELS - 16' - 20' - 24'

Slant bars help prevent cattle from moving in and out. Low, comfortable height of tank sides. All sizes of cattle can feed with heads in unit **(EXCEPT CATTLE WITH HORNS)**.

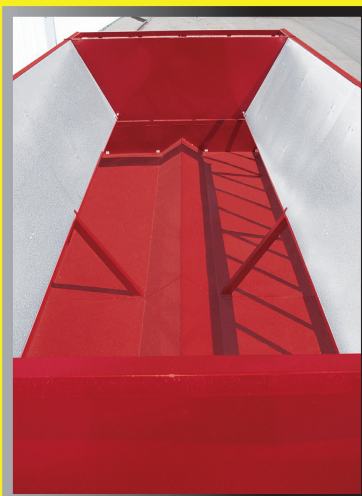

FIXED TANDEM MODELS - 24' - 30'

E FEEDER WAGONS

The inside sidewalls and end panels can be removed for better feeding of square or round bales. The panels are removable on the slant bar feeders.

The main feed pan is constructed of prime steel with the square tubing around the top of the feed pan. Square tubing is 40% stronger than pipe.

H&S bunks are easy to clean out spoiled feed from the feeder tub. No clutter of numerous pipes or tubes are welded in to clean around.

H&S bunks feature a 90° turning radius with tricycle front end, 6 hole hubs and wheels, and quick hitch tongue.

All models have a full axle all the way through the unit.

H&S MAKES YOUR FEEDING DEPENDABLE & EASIER
