

## Accurately achieve results at TRUE higher speeds.

Double the acres you plant in a day\* with **True Speed**®, a high speed electric drive meter that controls seed from meter to seed trench. The result is precise singulation and seed spacing with various seed shapes and sizes from 3-12 mph. **An easy to maintain design that saves you time and money, resulting in a lower cost of ownership.**

\*subject to equipment, seed type and field conditions

- Complete control of seed from disc to flighted belt and then on to the seed trench
- Only 3-clicks required to set up for planting with **Blue Vantage**®, the industry's only dedicated planter display that offers a simple, accurate and intuitive user experience
- Low cost of ownership – industry leading wear life components
- Quick changeover of seed type is aided by a pivoting meter mount with lock-up, and easy to remove seed discs
- Self-aligning delivery tube ensures proper meter engagement
- Tool-less meter and delivery tube allows for simple, low cost maintenance
- Plants corn, soybeans, cotton, sugar beets and milo

### Unique meter orientation

Perpendicular meter orientation provides seamless seed handoff from disc to delivery tube

### No adjust singulator

One singulator for all crop types requires no adjustment

### Brush wheel

- Keeps seed in control with a positive handoff from the seed disc to the delivery belt
- Longer life and low cost replacement provides lower cost of ownership

### Kevlar reinforced belt

Increased wear life of components resulting in a lower cost of ownership and eliminates the need to remove at the end of the season

### Lowest release points in the industry

For superior Coefficient of Variation (COV)

## Unique seed disc paddle design

Provides positive load-in and holds the seed for precise handoff to delivery belt

**Corn**  
32 Cells

**Soybean**  
92 Cell, 30"

**Cotton**  
46 Cells

**Sugar beet/Milo**  
46 Cells

## Accuracy at your speed to maximize field efficiency and planting performance at speeds from 3-12 mph.

Plant to match conditions/terrains without sacrificing meter performance.

**Plant 1,043 more acres per week**

Field avg 9 mph = 45 acres/hr  
10 hour days (x 7) = 3,178 acres  
vs.

Field avg 6 mph = 31 acres/hr  
10 hour days (x 7) = 2,135 acres

**Plant 931 more acres per week**

Field avg 8.6 mph = 44 acres/hr  
10 hour days (x 7) = 3,066 acres  
vs.

Field avg 6 mph = 31 acres/hr  
10 hour days (x 7) = 2,135 acres

**Plant 616 more acres per week**

Field Avg 6.75 mph = 34 acres/hr  
10 hour days (x 7) = 2,401 acres  
vs.

Avg 5 mph = 26 acres/hr  
10 hour days (x 7) = 1,785 acres

	5 mph	7 mph	10 mph	12 mph
<b>Acres/hour (24 row planter)</b>	26 acres/hr	36 acres/hr	51 acres/hr	61 acres/hr
<b>Acres/hour (16 row planter)</b>	17 acres/hr	24 acres/hr	34 acres/hr	41 acres/hr
<b>% efficiency increase</b>	-----	29%	50%	60%

**True Speed availability:  
Bulk Fill 4905, 4705, and 3665\***

\* Available with Split Row Option
